BCLP STRENGTHENS PARIS OFFICE WITH NEW FINANCIAL REGULATION AND ASSET MANAGEMENT TEAM

Jan 30, 2025

International law firm BCLP today announces the arrival of a financial regulation and asset management team led by partner Damien Luqué, including counsel Martin Jarrige de la Sizeranne and associate Sacha Tartarin.

The addition of the team marks a significant next step in the firm's global growth strategy and diversifies our offering in France and the EU.

Damien's core practice focuses on asset management and financial regulation. He works with a wide range of clients across credit institutions, asset managers, and institutional investors. He has deep experience advising clients on investment vehicles structures, including alternative investment funds, UCITS, private equity funds, debt funds, ELTIF II funds and other collective investments.

In addition, Damien advises French and foreign financial institutions on regulatory issues relating to the provision of banking and financial services, particularly during the launch of new offerings. He also assists clients before regulators such as AMF and ACPR, and in pre-litigation matters.

With his wider team, Damien recently advised PAREF Gestion on the regulatory aspects of the merger of Novapierre Allemagne 2 into Novapierre Allemagne, leading to the creation of PAREF Prima. He also advises players such as Dexia, Arkéa and LaSalle Investment Management.

Olivier Mesmin, Co-managing partner at BCLP Paris, commented, "Damien's proficiency, along with that of his team's, aligns seamlessly with our existing work. Their combined experience will further enhance our corporate, tax, finance and real estate offering.

Partner Damien Luqué commented, "It was clear that our skills, clients and sector focus were in sync with BCLP and its global objectives. Our integration reflects the ambition of the Paris office, and we're excited to **grow** our business at BCLP to offer an integrated international dimension that meets the expectations of both French and international clients."
